

ST - 100 Sign Trailer

Standard Specification – All Trailer Models

The ST 100 trailer consists of a 3.0m x 2.3m non corroding aluminium, sign panel (As P 7402 - ALTERNATIVE DESIGN). Durable 4 -fold MS340 (340mm) halogen lights with automatic dimming for night time use, plates attached with Anti Luce clips and hooks. Durable heavy duty galvanized steel construction framework. (Because many of our customers have sign making facilities, we do not include signs, but do offer them as an optional extra. Customers own signs will need to be drilled to suit Anti Luce clips as fitted)

The sign face, wickets signs and supplementary plates when supplied are all DG3 reflective to comply with Chapter 8 requirements.

- Large carrying basket & box.
- Step for sign access.
- 1 tonne capacity bolt on suspension units.
- Outline rear markers.
- Direct electric feed

Optional Extras (see above)

3 or 4 lane wickets and supplementary plates.
